

Siskiyou Pediatric Clinic, LLP

700 SW Ramsey Ave., Suite 204

Grants Pass, OR 97527

541-955-5683

To the TEEN:

The following confidential questionnaire will give you a chance to tell your doctor about your school, health, personal habits, concerns and feelings. During the appointment you will be given time to talk privately to your doctor about the questions on the form or any other concerns you may have.

Some of the areas we might talk about during the appointment are:

- **Body changes and feelings**
- **Diet, exercise and body image**
- **Fighting, danger and violence**
- **Dating, relationships, bullying, peer pressure**
- **Safety and driving**
- **Smoking, drugs and alcohol**
- **Depression and stress**
- **Family life**

Our goal is to listen, treat and teach you about good healthcare habits; to prevent problems now or in the future. We will not judge or make you feel bad; for that reason, we encourage you to be honest while completing the questionnaire and talking with your doctor.

Many teenagers will hide what they are doing or feeling so their parents will not find out. Although we do encourage you to talk to your parents, **Oregon state law requires that some services are offered to teens privately.** This includes pregnancy testing and services, birth control, testing for and treatment of sexually transmitted infections, drug abuse treatment, and mental health counseling. **We will ask your parent(s) to step out** for part of the visit to give you a chance to ask questions or give information that you may feel self-conscious about.

The Siskiyou Pediatric Team is always available to discuss health problems or answer your questions. We want to help you make the best choices for your healthy future.
